

Audio/video solutions

AV, IT, Security, LCS & Sat-Com

Reliable and innovative

Alewijnse and Tijssen Elektro are important co-makers for many leading yacht builders. Our high-end audio/video & IT systems can be found on a wide variety of luxury yachts.

About AV

The luxury yacht sector demands the highest standards for information and entertainment systems. This calls for advanced knowledge and skill in innovative communication, audio/video (AV), and IT solutions.

Integrated Systems

We apply our experience in the design, supply, and maintenance of complete electrical systems, including automation, monitoring, and control, to develop integrated AV and IT systems that fully meet our clients' expectations for performance and functionality.

Solutions

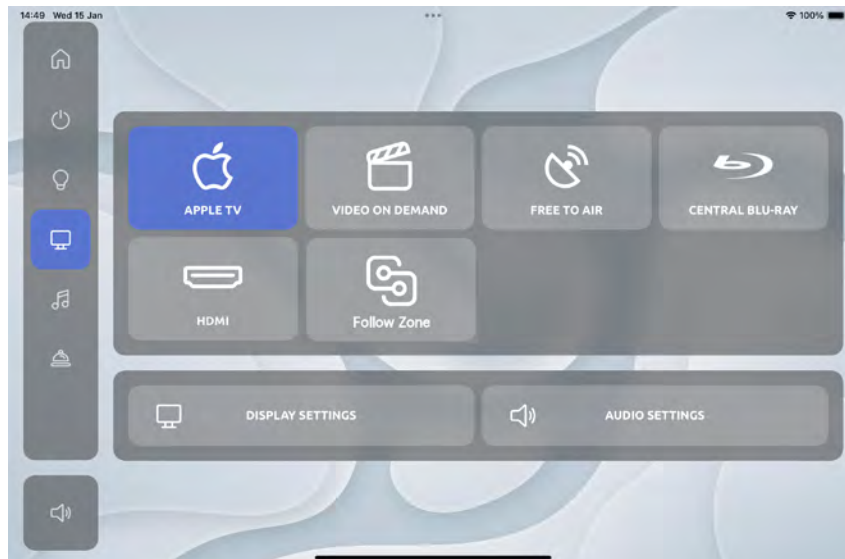

Our solutions for entertainment, information and control include: ethernet, WIFI networks, telephone systems, CCTV, security, audio/video, lighting, satellite internet, radio and TV, music and movie on demand, unified threat management (UTM), thermal cameras, YachtEye, GSM/UHF/VHF repeaters and antennas and internet source selection and our new and innovative Alewijnse/Tijssen Elektro Movie On Demand (ALMOD) system and next generation Graphical User Interface (GUI).

About Alewijnse/Tijssen Elektro

We are a leading system integrator of electrical and automation systems for the global maritime industry, supported by over 135 years of experience. Working in partnerships with our customers and suppliers, we offer a comprehensive range of technical solutions. These include electrical installations, power distribution, propulsion systems, vessel and process automation, audio, video & IT, lighting & lighting control, safety & security and navigation & communications.

Delivering innovative, cost-effective and sustainable solutions with a high level of availability, we work on a great number of vessels, such as superyachts, naval & governmental vessels and dredging, offshore & transport vessels; every year in new build, refit and service.

Our employees are dedicated, competent, and flexible, working efficiently in an open atmosphere where knowledge sharing is part of our DNA. We support our global operations through a worldwide network of branches, representative offices, and strategic alliances, ensuring we are ready to serve you wherever you are.

→ Client benefits

- Reliable
- State of the art system
- Future proof
- Intuitive and user friendly
- Easy expansion
- Reducing hardware
- Cost saving
- Easy maintenance
- Easy interfacing

WeDesign. WeEngineer. WeBuild. WeService.
