Service

For all service, maintenance and refit projects, electrical system integrator Alewijnse Marine offers 24/7 worldwide support. We cover the complete lifecycle of any vessel and have the equipment, parts and personnel to guarantee top quality execution within tight deadlines.

Service

Our experienced technicians are just a phone call away for all kind of electrical and automation systems on board your vessel. Our network of service hubs ensures that skilled staff are positioned at strategic locations around the world, yet united by one central approach.
